TO: Standards Technical Panel (STP) for Electromagnetic Interference Filters, STP 1283;  
Subscribers to UL's Recognition and Listing Service for Electromagnetic  
Interference Filters, Under UL 1283

SUBJECT: 1) Proposal to Extend the Effective Date for the Present UL 1283 Industry File Review with  
an Effective Date of November 30, 2007  
2) Determine the Interest in Harmonizing UL 1283 with IEC 60939

1) Based on comments received from industry and the extent of testing necessary for the subject industry review, we are seeking your comments regarding our proposal to extend the effective date of the review of UL certified products and components from November 30, 2007 to November 30, 2012.

2) UL also has been asked by members of industry to consider harmonizing UL 1283 with IEC 60939-1 (Passive filter units for electromagnetic interference suppression – Part 1: Generic specification) and we are seeking comments/suggestions from industry regarding this direction. Should the response from industry be positive, UL will begin the harmonization process and once completed will accept submittals to the harmonized UL Standard. UL would then establish an expiration date for UL 1283 and withdraw the present edition on that date.

Please provide your comments to Barry Kalian at [Barrett.T.Kalian@us.ul.com](mailto:Barrett.T.Kalian@us.ul.com) by April 26, 2007, using the attached. Should you have questions regarding this proposal, please contact Joseph DeGregoria by email ([Joseph.P.DeGregoria@us.ul.com](mailto:Joseph.P.DeGregoria@us.ul.com)) or phone, (631) 271-6200, Ext. 22801.

- I support the extension of the effective date for the review of currently certified products to the Fifth Edition (dated November 30, 2005) of UL 1283 until November 30, 2012.
- I do not support the extension of the effective date for the review of currently certified products to the Fifth Edition (dated November 30, 2005) of UL 1283 until November 30, 2012.
- I support the action to harmonize UL 1283 with IEC 60939. This would mean the withdrawal of UL 1283 and the compliance of all Listed products with the UL adoption of IEC 60939 by an effective date that will be established when the harmonization is complete.
- I do not support the action to harmonize UL 1283 with IEC 60939
