

UL 10D

August 27, 2015

TO: Subscribers to UL's Listing Services under the Standard for Fire Tests of Fire Protective Curtain Assemblies, UL 10D.

**SUBJECT: EFFECTIVE DATE CHANGE**

An Industry File Review (IFR) is presently in effect per UL's IFR Announcement/Action Required Letters of July 25, 2014 to determine compliance with the new and revised requirements in the Standard for Fire Tests of Fire Protective Curtain Assemblies, UL 10D.

Due to some delays in conducting the IFR, UL is extending the effective date from August 31, 2015 to April 30, 2016 to allow more time for UL to complete the file review for compliance with the new and revised requirements.

Questions regarding interpretation of requirements should be directed to the responsible UL Staff in the office where you normally conduct engineering investigations.

Sincerely,
