INDUSTRY FILE REVIEW- ACTION REQUIRED LETTER

An Industry File Review (IFR) is presently in effect to determine compliance with the new and revised requirements in the Standard for Power Converters/Inverters and Power Converter/ Inverter Systems for Land Vehicles and Marine Crafts, UL 458, 5th Edition. The Effective Date for this File Review is February 20, 2016.

This Action Required Letter announces the extension of the UL 458 File Review to September 02, 2017. This letter supersedes the Action Required Letter dated April 23, 2013.

This letter also announces the establishment of a File Review to determine compliance with the new and revised requirements of UL 458, 6th Edition.

Please note that these File Reviews will be handled concurrently. They include determination of compliance with the new and revised requirements of UL 458, 5th Edition (2006), including revisions dated February 20, 2013. The Effective Date for both File Reviews is September 02, 2017.

SUBJECT NUMBER: 458

EFFECTIVE DATE: 2017-09-02

ACTION REQUIRED LETTER DATE: 2016-02-20

Please visit our Industry File Review website at <http://ifr.ul.com/> (do not include www in the URL). There, you will have access to the Important Letter that provides information concerning our Industry File Review process. In addition, the Information & Schedule and Summary of Requirements for specific reviews are located on the left hand side of the screen. Using the search function, you can search for these documents by the Action Required Letter Date, Effective Date or Subject Number.

If you do not have internet access, experience difficulty retrieving documents or have questions concerning the Industry File Review process, please contact our Customer Service Department at one of the numbers indicated below. Please provide the Subject Number, Effective Date or Action Required Letter date as indicated above, along with your fax number or mailing address. We will fax or mail the Industry File Review information to you.

Revisions to UL Follow-Up Procedures, including deletion of models and specific constructions on the previous Effective Date, resulting from Applicant requests or prior investigation of products by UL will remain in place unless an Applicant specifically requests that UL reverse such revisions. Applicants interested in retaining such models or constructions until the new Effective Date should contact UL's Customer Service Department immediately.
