CERTIFICATION BULLETIN 2014-01

Extension of the Industry File Review Effective Date from December 31, 2012 to December 31, 2018 for Revised Requirements in CAN/CGSB 65.7-2007

To: Subscribers to ULC's Certification Services for Life Jackets, CAN/CGSB 65.7-2007 and others interested.
ZDTQC - Personal Buoyant Water Safety Products

This Bulletin is in continuation to Certification Bulletin 2012-06 issued on July 23, 2012. Underwriters Laboratories of Canada Inc. (ULC) has received correspondence from Transport Canada with their intention to extend the Approval certificates that would have expired on December 31, 2012 until December 31, 2018.

This decision was made in light of the continued work towards the implementation of a North American Harmonized Life Jacket Standard. With this extension by Transport Canada, ULC will also extend the File Review effective date associated with the revised requirements in CAN/CGSB 65.7-2007.

The new File Review Effective date is - **December 31, 2018**.

Revisions to ULC Follow-Up Procedures, including deletion of models and specific constructions on the previous Effective Date, resulting from Applicant requests or prior investigation of products by ULC will remain in place unless an Applicant specifically requests that ULC reverse such revisions. Applicants interested in retaining such models or constructions until the new Effective Date should contact ULC's Customer Service Department at their earliest.

Any questions concerning the above should be directed to Mr. Gunsimar Paintal, Regional Manager – Accreditation & Quality and ULC Mark Program Owner at +416.288.2217.

Sincerely,

Underwriters Laboratories of Canada Inc.
